SUMMARY

Full Stack Developer specializing in **MERN stack**, **RESTful API design**, and production deployment. Founder of **MoodNest** (moodnest.in), a live MERN platform for event ticketing, QR entry operations, and nearby place discovery. Built an **offline-first PWA QR verification system** using **IndexedDB** and service workers for reliable gate entry during network failures.

TECHNICAL SKILLS

Programming Languages: C++, Python, JavaScript, SQL

Backend & Databases: Node.js, Express.js, MongoDB, REST APIs, JWT Authentication

Frontend: React.js, HTML, CSS, Progressive Web Apps (PWA)

DevOps & Tools: Git, GitHub, Postman, Linux, Vercel, Render

Cloud & APIs: AWS, Google Cloud, Google Places API

PROJECTS

MoodNest — moodnest.in

Jan 2026 – Present

Founder & Full-Stack Developer

MERN Stack

- Founded and deployed [MoodNest](https://moodnest.in), a live MERN platform for event ticketing, QR entry operations, and nearby place discovery.
- Built secure booking, authentication, organizer-admin workflows, and public event-sharing flows with protected actions.
- Integrated Google Places API, placeld-based duplicate prevention, and multi-image uploads for production use.
- Created public business verification page for compliance: [MSME / Business Identity Verification](#).

Offline QR Ticket Verification System

Feb 2026 – Present

Offline-First PWA System

IndexedDB, Service Worker

- Built offline QR validation system enabling secure ticket scanning without internet connectivity.
- Implemented duplicate prevention and offline check-in logs supporting 1000+ attendees.

Progress Portal

Apr 2025 – May 2025

Problem-Solving Dashboard

React, Node.js

- Developed analytics dashboard tracking 500+ coding problems across multiple platforms.
- Implemented performance analytics including streak and improvement tracking.

Sports Vision

Nov 2024 – Dec 2024

Computer Vision Project

Python, YOLO

- Developed a real-time player tracking system using YOLO-based detection and tracking algorithms.
- Extracted and analyzed movement metrics to support sports performance evaluation and insights.

EXPERIENCE

Software Intern

Mar 2026 – Apr 2026

Webpoint Solutions

Bhopal, India

- Developed production REST APIs using Node.js, Express, and MongoDB.
- Implemented JWT authentication and role-based access control.
- Collaborated with senior engineers to deliver production-ready backend features.

EDUCATION

Vellore Institute of Technology

Aug 2023 – May 2027

B.Tech in Computer Science and Engineering

CGPA: 7.2/10

CERTIFICATIONS

NPTEL: Marketing Analytics – IIT Kharagpur (Course Topper, 2026)

Google IT Support Professional Certificate (2026)

AWS Certified Cloud Practitioner (2025)

AWS Technical Essentials (2025)

NPTEL: Operating Systems and System Programming (2024)

ISRO IIRS: Geodata Processing using Python (2024)

Google: Bits and Bytes of Computer Networking (2024)
